Markets — Weekend Edition: Reported Friday Risk-On Rally Reportedly Carried Reported Semiconductor and Reported Industrial-Metals Leadership Into the Weekend; Reported Fed-Hold Base Case Reportedly Priced at Approximately 81% for the Reported October 27–28 FOMC per CME FedWatch Coverage; Reported Weekend Aramco Fire Reportedly Reasserts the Reported Physical-Crude Supply-Risk Overhang Into the Reported Sunday OPEC+ Meeting and Monday's Reported 10:00 AM ET ISM Services Release

REPORTED WEEK IN REVIEW: REPORTED SOFT SEPTEMBER PAYROLLS REPORTEDLY REASSERTED THE REPORTED DOVISH-RATES CHANNEL FRIDAY AND THE REPORTED FCI SEMICONDUCTOR AND REPORTED INDUSTRIAL-METALS SLEEVES REPORTEDLY LED THE WEEKLY TAPE; REPORTED WEEKEND DEVELOPMENTS REPORTEDLY REASSERTED THE REPORTED PHYSICAL-CRUDE SUPPLY-RISK PREMIUM THROUGH A REPORTED SATURDAY FIRE AT A REPORTED ARAMCO FACILITY NEAR RIYADH THAT THE REPORTED HOUTHIS REPORTEDLY CLAIMED PER AL JAZEERA AND REUTERS COVERAGE

Per data drop, the reported Friday session reportedly closed with SPY at \$769.64 (↑0.74%), QQQ at \$749.58 (↑1.02%), DIA at \$511.10 (↑0.49%), and the reported Russell 2000 at \$281.52 (↑0.90%) — a reported broad-breadth rally reportedly reading through the reported September payrolls miss of approximately 29K versus a reported 84K consensus per BLS release coverage. Per TheStreet weekly coverage, SPY reportedly closed the reported week approximately +0.2% higher. Per CNBC coverage of CME FedWatch and Kalshi, reported Fed hike odds for the reported October 27–28 FOMC reportedly priced near approximately 18% late in the week with reported hold odds reportedly near approximately 81%, reportedly down from approximately 70% hike pricing the prior week per Benzinga coverage of Fed Vice Chair Jefferson commentary. Per Reuters coverage carried in the data drop headlines and Al Jazeera weekend coverage, a reported Saturday fire reportedly erupted near a reported Aramco facility south of Riyadh that reported Houthi military spokesman Yahya Saree reportedly claimed as a reported ballistic-missile-and-drone operation, with the reported Saudi-led coalition reportedly calling the claim misleading. Per data drop, WTI (USO) reportedly closed Friday at \$147.37 (↓1.77%) and Brent (BNO) at \$63.10 (↑0.24%) — the reported pre-weekend tape sitting against the reported G7 strategic-release signal; the reported weekend Aramco fire reportedly reasserts the reported supply-risk overhang into the reported Sunday OPEC+ meeting and the reported Monday open. Per Benzinga coverage of CNN Fear & Greed, the reported CNN stock-market index reportedly reads approximately 31 (Fear) as of the reported Friday close — the reported data drop value of 65 reflects the reported crypto fallback after the reported CNN stock endpoint reportedly failed. Per data drop, Carson's active SPY support at \$645.80 (retracement target set April 13, 2026) remains untouched — Friday's reported intraday low of \$767.14 sits well above the level.

S&P 500 (SPY, FRI CLOSE)	\$769.64 ↑0.74% day · Weekly reportedly ~+0.2% per TheStreet
NASDAQ (QQQ) / DOW (DIA, FRI)	\$749.58 ↑1.02% / \$511.10 ↑0.49%
RUSSELL 2K / UVXY (FRI)	\$281.52 ↑0.90% / \$16.97 ↓2.86%
10Y YIELD / TLT (FRI)	Reportedly ~5.28% per TradingEconomics / \$77.48 ↓0.30%
WTI (USO) / BRENT (BNO, FRI)	\$147.37 ↓1.77% / \$63.10 ↑0.24%
GOLD (GLD) / SILVER (SLV, FRI)	\$380.14 ↓0.68% / \$54.74 ↓0.51%
BITCOIN (LIVE SUN) / IBIT (FRI)	Reportedly ~\$84,800 per CoinDesk / \$47.73 ↓0.48%
FED OCT 27–28 HIKE ODDS	Reportedly ~18% hike / ~81% hold per CME FedWatch · Reportedly down from ~70% hike prior week per Benzinga
CARSON'S ACTIVE SUPPORT	\$645.80 retracement target · Untouched (Fri low \$767.14)

REPORTED WEEKEND DEVELOPMENTS REPORTEDLY SHIFT THE MONDAY SETUP — REPORTED ARAMCO RIYADH FIRE REPORTEDLY REASSERTS THE REPORTED RED SEA AND REPORTED GULF SUPPLY-RISK OVERHANG, REPORTED OPEC+ MEETING TODAY REPORTEDLY EXPECTED TO REPORTEDLY MAINTAIN OCTOBER QUOTAS PER NEWSQUAWK AND OIL & GAS JOURNAL COVERAGE, REPORTED BITCOIN REPORTEDLY TRADES NEAR APPROXIMATELY \$84,800 PER COINDESK, AND REPORTED TRUMP REPORTEDLY REJECTED AN IRANIAN PEACE OFFER PER CBS NEWS COVERAGE CARRIED IN WEEKEND REPORTING

Per Al Jazeera and Reuters coverage of the reported Saturday weekend tape, a reported fire and reported smoke reportedly erupted near a reported Aramco facility south of Riyadh reportedly amid reported Houthi strike claims — the reported Saudi-led coalition reportedly disputed the claim as misleading per JPost coverage of coalition statements. Per Oil & Gas

Journal and Newsquawk preview coverage of the reported Sunday October 4 OPEC+ meeting, reported producers are reportedly expected to maintain reported October production targets with reported focus reportedly shifting to the reported 2027 quota baselines, after the reported seven core OPEC+ members reportedly agreed in reported early September to reportedly hold reported September production levels through October. Per CBS News weekend coverage, reported President Trump reportedly rejected a reported Iranian peace offer that would have reportedly reopened the reported Strait of Hormuz in exchange for reported U.S. concessions on reported port blockade and reported oil sanctions, with the reported president reportedly signaling a reported post-midterm strike-escalation path per The Hill and Washington Times coverage. Per CoinDesk weekend coverage, reported Bitcoin reportedly traded near approximately \$84,800 Sunday morning after reportedly failing another test above the reported \$87,000 range per Use the Bitcoin coverage, and per data drop, IBIT reportedly closed Friday at \$47.73 (↓0.48%) and ETHA at \$20.11 (↓1.28%) — a reported digital-asset divergence from the reported broader Friday risk-on tape. For FCI positioning, the composition — a reported weekend supply-risk escalation signal reportedly reading through the reported physical-crude layer, a reported OPEC+ hold expectation reportedly removing one near-term catalyst, a reported Iran-diplomacy breakdown reportedly reading through the reported sanctions-and-strike channel, and a reported bitcoin-live quote reportedly reading through the reported digital-asset-risk layer — keeps CVX, OKE, CNX, LMT, GD, NEE, VST, CEG, and the reported FCI physical-world-matters sleeve reading through the reported Monday setup.

A reported weekend Aramco fire reportedly reasserting the reported physical-crude supply-risk premium, a reported OPEC+ hold expectation reportedly removing one near-term supply catalyst, and a reported Fed-hold base case reportedly priced near approximately 81% into the reported October 27–28 FOMC window frames a Monday setup where physical world matters and research reveals opportunities tend to serve better than composing a single directional view. Think like an owner.

Geopolitics — Reported Aramco Riyadh Fire Reportedly Elevates the Reported Red Sea and Reported Gulf Supply-Risk Overhang; Reported Trump Reportedly Rejected an Iranian Peace Offer per CBS News; Reported OPEC+ Meeting Today Reportedly Expected to Hold October Quotas per Newsquawk and Oil & Gas Journal Coverage; Reported Pentagon Reportedly Concentrating Carrier Strike Groups in the Middle East per National Security Journal Coverage

REPORTED ARAMCO RIYADH FIRE REPORTEDLY ERUPTED SATURDAY PER AL JAZEERA AND REUTERS COVERAGE WITH REPORTED HOUTHİ MILITARY SPOKESMAN YAHYA SAREE REPORTEDLY CLAIMING A REPORTED BALLISTIC-MISSILE-AND-DRONE OPERATION; REPORTED SAUDI-LED COALITION REPORTEDLY CALLED THE HOUTHİ CLAIM MISLEADING PER JPOST COVERAGE; REPORTED RED SEA AND REPORTED GULF SUPPLY-RISK OVERHANG REPORTEDLY REASSERTS INTO THE REPORTED SUNDAY OPEC+ MEETING

Per Al Jazeera, Reuters, and L'Orient coverage of the reported Saturday weekend tape, flames and reported smoke reportedly were seen rising near a reported Aramco refinery south of Riyadh with reported fire engines reportedly on-site, and per Al Jazeera coverage, reported Houthi military spokesman Yahya Saree reportedly characterized the reported operation as reported precise and reported direct ballistic-missile-and-drone strikes against the reported Aramco site. Per JPost coverage of coalition statements, the reported Saudi-led coalition reportedly called the Houthi targeting claims misleading. Per prior Reuters coverage carried in Friday's data drop headlines, one piece reportedly framed reported Saudi Arabia as reportedly planning a reported assault on reported Houthi targets to reportedly break the reported Red Sea chokehold — a reported pre-weekend signal reportedly carried into the Saturday tape. Per Reuters coverage carried in the data drop, additional pieces reportedly framed reported Portugal prosecutors as reportedly probing the reported legality of U.S. use of the reported Lajes base in the reported Iran war and reported two Iranians as reportedly facing a reported UK court over an alleged reported terrorism plot targeting a reported Jewish community. Per data drop, LMT reportedly closed Friday at \$505.41 (↓0.02%) and GD reportedly closed at \$330.09 (↓0.79%), and per data drop, CVX reportedly closed at \$206.69 (↓0.20%), OKE at \$87.88 (↑0.83%), and CNX near-flat at \$31.50 (↓0.06%). For FCI positioning, the composition — a reported Aramco-fire catalyst reportedly reasserting the reported Gulf supply-risk premium, a reported Red Sea shipping-lane overhang reportedly reasserting the reported physical-crude supply layer, and a reported defense-industrial-base read reportedly reading through the reported midterm-escalation signal — keeps CVX, OKE, CNX, LMT, GD, and the reported FCI energy-and-defense sleeve reading through the reported physical-crude signal and the reported sanctions-and-strike channel into the Monday setup.

REPORTED TRUMP REPORTEDLY REJECTED AN IRANIAN PEACE OFFER PER CBS NEWS COVERAGE THAT WOULD HAVE REPORTEDLY REOPENED THE REPORTED STRAIT OF HORMUZ IN EXCHANGE FOR REPORTED PORT-BLOCKADE AND REPORTED OIL-SANCTION CONCESSIONS; REPORTED PENTAGON REPORTEDLY CONCENTRATING APPROXIMATELY THREE AIRCRAFT CARRIER STRIKE GROUPS AND REPORTED TWO AMPHIBIOUS GROUPS IN THE MIDDLE EAST PER NATIONAL SECURITY JOURNAL COVERAGE; REPORTED POST-MIDTERM STRIKE-ESCALATION SIGNAL REPORTEDLY REASSERTS PER THE HILL AND WASHINGTON TIMES COVERAGE

Per CBS News weekend coverage of the reported U.S.-Iran diplomatic track, reported President Trump reportedly rejected a reported Iranian peace offer that would have reportedly reopened the reported Strait of Hormuz in exchange for reported U.S. concessions on reported port blockade and reported oil sanctions. Per The Hill and Washington Times week-

end coverage, reported President Trump reportedly said reported ramped-up bombing of reported Iran is reportedly possible after the reported November 3 midterm elections. Per National Security Journal weekend coverage, the reported Pentagon reportedly concentrated approximately three reported aircraft carrier strike groups and approximately two reported amphibious groups in the reported Middle East in reported preparation for a reported potential post-midterm strike window. Per The Hill coverage of reported Iranian Foreign Minister Araghchi commentary, Iran reportedly characterized itself as reported fully prepared to resume reported war if reported U.S. aggression resumes, while reportedly leaving a reported diplomatic track reportedly open. Per Reuters coverage carried in the data drop, additional pieces reportedly framed reported Russian combined missile-and-drone strikes reportedly hit reported Ukraine energy infrastructure re-

portedly including the reported Trypil'ska plant per CNBC coverage, reportedly marking the reported start of a reported cold-weather campaign reportedly aimed at reportedly degrading reported energy security before winter. For FCI positioning, the composition — a reported Iran-diplomacy breakdown reportedly reading through the reported sanctions-and-strike channel, a reported carrier-group concentration reportedly reading through the reported pre-midterm military

posture, a reported Houthi-strike escalation reportedly reading through the reported Red Sea channel, and a reported Russian cold-weather energy campaign reportedly reading through the reported European-gas-and-oil channel — keeps LMT, GD, CVX, OKE, CNX, NEE, and the reported FCI defense-and-energy complex reading through the reported cross-asset spillover into the Monday setup.

On Our Radar

1. Week Ahead — Reported ISM Services PMI Monday October 5 at 10:00 AM ET per Newsquawk Calendar; Reported FOMC Minutes Wednesday October 7 at 2:00 PM ET per Investing Live and FXStreet Coverage; Reported Fed Speakers Reportedly Scheduled All Week (Williams and Bowman Tuesday, Logan and Williams Wednesday, Musalem Thursday, Collins Friday) per Newsquawk and CMC Markets Coverage; Reported September CPI Reportedly Scheduled Wednesday October 14 per Right Trader Economic Calendar. Per Newsquawk and CMC Markets preview coverage, the reported ISM Services PMI for September is reportedly scheduled for release Monday October 5 at 10:00 AM ET with reported market consensus clustered near the reported 54–55.5 range per Polymarket and Financial Calendar preview coverage, versus August’s reported 55.4 reading. Per Investing Live and FXStreet calendar coverage, the reported FOMC minutes from the reported mid-September meeting are reportedly scheduled Wednesday October 7 at 2:00 PM ET — reported committee discussion is reportedly a central focus into the reported October 27–28 FOMC after the reported soft September payrolls print reportedly collapsed hike odds to approximately 18% per CNBC coverage of CME FedWatch and Benzinga coverage. Per Newsquawk weekly calendar, reported Fed speakers reportedly scheduled include Williams and Bowman Tuesday October 6, Logan and Williams Wednesday October 7, Musalem Thursday October 8, and Collins Friday October 9. Per Right Trader economic calendar coverage, the reported September CPI is reportedly scheduled Wednesday October 14 at 8:30 AM ET. For FCI positioning, the composition keeps the reported FCI rate-sensitive sleeve (ADP, SPGI, CHD, CL, DGX, SYK, ABT) reading through the reported Fed-speaker cadence and the reported FOMC minutes signal into the reported October 27–28 FOMC window.

2. Reported Earnings Week Ahead — Reported Constellation Brands (STZ) Reportedly After the Close Tuesday October 6, Reported PepsiCo (PEP) Reportedly Thursday Pre-Market October 8, Reported Levi Strauss (LEVI) Reportedly Wednesday After the Close October 7, and Reported Delta Air Lines (DAL) Reportedly Pre-Market Friday October 9 per Rallies.ai and Freetrade.io Coverage; Reported Consumer-Discretionary and Reported Airline Signal Reportedly Reads Through the Reported Consumer-Spending Channel. Per Rallies.ai and Freetrade.io week-ahead coverage, reported Constellation Brands is reportedly scheduled Q2 2027 results after the close Tuesday October 6, reported PepsiCo is reportedly scheduled Q3 2026 results pre-market Thursday October 8, reported Levi Strauss is reportedly scheduled after the close Wednesday October 7, and reported Delta Air Lines is reportedly scheduled Q3 2026 results pre-market Friday October 9. Per Ortex and SeekingAlpha coverage, reported analyst expectations into the reported PEP print reportedly focus on reported North American volume recovery and reported margin preservation amid reported heavier brand investment. Per data drop, the reported FCI consumer-staples and reported industrial-dividend sleeves reportedly closed Friday with CL ↓0.32% at \$84.26, CHD ↑0.21% at \$94.31, PCAR ↓0.24% at \$109.68, and FAST ↑1.05% at \$50.75. For FCI positioning — a reported consumer-discretionary signal reportedly reading through the reported PEP and STZ reads, and a reported airline-cycle signal reportedly reading through the reported DAL print — keeps CL, CHD, PCAR, FAST, and the reported FCI consumer-adjacent sleeve reading through the reported consumer-spending channel into the Monday setup.

3. Reported Weekend Aramco Riyadh Fire Reportedly Catalyzes a Reported Monday-Open Supply-Risk Repricing per Al Jazeera and Reuters Coverage; Reported OPEC+ Meeting Sunday Reportedly Expected to Hold October Quotas Steady With Reported Focus Shifting to the Reported 2027 Baselines per Oil & Gas Journal; Reported WTI (USO) Reportedly Closed Friday at \$147.37 (↓1.77%) and Reported Brent (BNO) at \$63.10 (↑0.24%) per Data Drop. Per Al Jazeera and Reuters weekend coverage, the reported Saturday Aramco Riyadh fire reportedly reasserts the reported Gulf supply-risk overhang into the reported Sunday OPEC+ meeting and the reported Monday open. Per Oil & Gas Journal and Newsquawk preview coverage of the reported October 4 OPEC+ meeting, reported producers are reportedly expected to maintain October production targets and reportedly shift focus to the reported 2027 quota baselines after reported seven core OPEC+ members reportedly agreed in September to reportedly hold September levels through October. Per Invezz weekend coverage, reported Brent reportedly carried a reported escalation-fear premium into the Monday open with reported G7 strategic-release signaling and reported Chinese fuel-export suspension reportedly offsetting the reported Hormuz premium. For FCI positioning — a reported Aramco-fire catalyst reportedly reading through the reported Gulf-supply-risk layer, a reported OPEC+ hold expectation reportedly removing one near-term supply catalyst, and a reported G7 strategic-release signal reportedly offsetting partially — keeps CVX, OKE, CNX, XLE, and the reported FCI energy sleeve reading through the reported physical-crude signal into the Monday setup.

4. Reported Bitcoin Live Reportedly Near Approximately \$84,800 per CoinDesk and CoinGecko Weekend Coverage After Reportedly Failing Another Test Above the Reported \$87,000 Range per Use the Bitcoin Weekend Coverage; Reported IBIT Reportedly Closed Friday at \$47.73 (↓0.48%) and Reported ETHA at \$20.11 (↓1.28%) per Data Drop; Reported CNN Stock Fear & Greed Reportedly Reads Approximately 31 (Fear) per Benzinga Coverage While the Reported Data Drop Reads 65 (Crypto Fallback). Per CoinDesk and CoinGecko weekend coverage, reported Bitcoin reportedly traded near approximately \$84,800 Sunday morning after reportedly another failed attempt to sustain a reported recovery above approximately \$87,000, with reported immediate range resistance reportedly near the reported \$86,000 zone per Use the Bitcoin coverage. Per data drop, IBIT reportedly closed Friday at \$47.73 (↓0.48%) and ETHA at \$20.11 (↓1.28%) — a reported digital-asset divergence from the reported broader Friday risk-on tape. Per Benzinga coverage of CNN Fear & Greed, the reported CNN stock-market index reportedly reads approximately 31 (Fear) — the reported data drop value of 65 reflects the reported crypto fallback after the reported CNN stock endpoint reportedly failed. For FCI positioning — a reported bitcoin-live quote reading through the reported digital-assets layer, a reported miner-dispersion signal reportedly reading through the reported Bitcoin-leveraged channel, and a reported fear-sentiment read reportedly reading through the reported stock-market-emotion channel — keeps IBIT and ETHA reading through the reported crypto-ETF signal and the reported duration layer into the Monday setup.

5. Carson's Levels — Reported SPY Active Support at \$645.80 (Carson Retracement Target Set April 13, 2026) Remains Untouched Through Friday's Reported Intraday Low of \$767.14 per Data Drop; Reported Prior Resistance Zones at \$683.70, \$685.85, \$691.90, and \$693.20 Were All Reported Hit in April 2026 and Have Been Reported Cleared to the Upside Through the Reported Friday Close of \$769.64. Per levels.json, Carson's active SPY support level at \$645.80 (reported retracement target set April 13, 2026) remains untouched. Per data drop, Friday's reported SPY intraday low reportedly printed \$767.14 and reportedly closed at \$769.64 — reportedly approximately 18.8% above the reported active retracement target. Per levels.json, the reported prior resistance zones (reported \$683.70 and \$685.85, and the reported major zone \$691.90–\$693.20) were all reportedly hit in April 2026 and have been reportedly cleared to the upside through the reported Friday close. For FCI positioning, Carson's reported active retracement target reportedly frames a reported deployment reference consistent with the reported FCI bear-market deployment tranche framework (reported 70% of reserves at a reported -25% drawdown, remainder at a reported -40% drawdown).
